Commenting on the capital adequacy update, chairman Heather Lamborn added:

“Today we are able to confirm our capital position ahead of the regulatory deadline. This shows we are strongly positioned for future growth. Alongside this, we continue to enhance our overall proposition and our published service performance shows that we exceed our published standards with many tasks having a same day or next day turnaround. We are committed to providing a solution that is tailored to advisers’ needs and we believe our whole of market investment choice together with our transparent approach to pricing helps with this.
